猫がハマる横濱の風景

Nekohama Exhibition Admission Free

Yokohama has long flourished as a trading port. Cats have been cherished as guardians, protecting precious cargo such as food and books from mice. In this open-minded city that embraces the new, the image of cats living freely, peacefully, and resiliently seems to resonate deeply with Yokohama's spirit. In this exhibition, artists will capture scenes of Yokohama through the lens of cats, offering unique perspectives shaped by their creative vision.
